

The Q-Track Corporation
3414 Governors Drive SW, Suite Q
Huntsville, AL 35805

Senior Software Developer

Job Description: This position involves leadership in all phases of software development life cycle, including software specifications, design, coding, and testing. The candidate will manage our core software product: a distributed, real-time, multi-tier application that tracks low-frequency radio transmitters and provides location data to clients.

Responsibilities:

- 🔍 Manage and direct the company's software efforts.
- 🔍 Test and maintain all layers of a real-time, multi-tier tracking system written in C# 3.5.
- 🔍 Extend the core product with client- and server-side plug-ins.
- 🔍 Develop, configure, and deploy web services using WCF.
- 🔍 Keep up-to-date documentation for end-users and other developers.
- 🔍 Provide written progress reports.
- 🔍 Collaborate with software and hardware engineers on the development of new products.

Required Experience:

- 🔍 Holds a BS/MS degree in Computer Science or a related discipline.
- 🔍 Has five years of experience using C# and other .NET technologies, including WCF, LINQ, and ASP.NET
- 🔍 Can execute basic commands for an SQL database.

The Ideal Candidate:

- 🔍 Enjoys working in a fast-paced, high-pressure start-up environment.
- 🔍 Able to lead, collaborate, and work well in an interdisciplinary team including business, hardware, and software experts.
- 🔍 Exercises initiative, and exhibits both creativity and enthusiasm.

Compensation: appropriate for background and qualifications; medical/flex plans available; employee stock option plan.

About Q-Track

Q-Track Corporation is a wireless technology start-up company at the forefront of real time location and tracking systems. We provide GPS-like capability indoors. We seek highly qualified software engineers with entrepreneurial inclinations to develop software for multiple applications of our breakthrough wireless location technology.
